Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 18-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wisdom et al. (6145741) as applied in the previous Office Action. See prior action for specific citations and reasoning.

Response to Arguments

Applicant refers to an affidavit or declaration filed in the parent application. Affidavits or declarations, such as those submitted under 37 CFR 1.131 and 37 CFR 1.132, filed during the prosecution of the parent application do not automatically become a part of this application.

Where it is desired to rely on an earlier filed affidavit or declaration, the applicant should make

Art Unit: 3624

the remarks of record in the later application and include a copy of the original affidavit or declaration filed in the parent application.

Response to Amendment

The Declaration filed on 7-15-03 under 37 CFR 1.131 has been considered but is ineffective to overcome the Wisdom et al. reference.

The evidence submitted is insufficient to establish a conception of the invention prior to the effective date of the Wisdom et al. reference. While conception is the mental part of the inventive act, it must be capable of proof, such as by demonstrative evidence or by a complete disclosure to another. Conception is more than a vague idea of how to solve a problem. The requisite means themselves and their interaction must also be comprehended. See *Mergenthaler v. Scudder*, 1897 C.D. 724, 81 O.G. 1417 (D.C. Cir. 1897). A mere allegation of the claimed method steps of the method invention of independent claim 18 (as amended by Preliminary amendment filed 10-22-2002) to include a step of involving the purchasing intermediary is insufficient to overcome the Wisdom et al. reference.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 3624

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
